

FORMULARY BENEFITS DATA CONSENT FORM

Formulary Benefits data are maintained for health insurance providers by organizations known as Pharmacy Benefits Managers (PBM). PBM's are third-party administrators of prescription drug programs whose primary responsibilities are processing and paying prescription drug claims. They also develop and maintain formularies, which are list of dispensable drugs covered by a particular drug benefit plan.

We may need access to your data as maintained by PBM's to know what medications have been prescribed to you in the past, and to know which drugs are covered by your insurance plan.

By signing below I give permission for Southern E.N.T. Associates, Inc. to access my pharmacy benefits data electronically through Sure Scripts. This consent will enable Southern E.N.T. Associates, Inc. to:

- Determine the pharmacy benefits and drug copays for a patient's health plan.
- Check whether a prescribed medication is covered (in formulary) under a patient's plan.
- Display therapeutic alternatives with preference rank (if available) within drug class for non-formulary medications.
- Determine if a patient's health plan allows electronic prescribing to Mail Order pharmacies, and if so, e-prescribe to these pharmacies.
- Download a historic list of all medications prescribed for a patient by another provider.

In summary, we ask your permission to obtain formulary information, and information about other prescriptions prescribed by other providers using Sure Scripts.
